

## Editorial Note: Journal of Clinical Immunology and Allergy (IPJAB)

### Dear Readers,

We are very much delighted to mention all of you that we have completed our 4th successful year in the arena of publishing and research on Immunology and Allergy. Over the past 8 years we have spread our wings across the globe and have collaborated with many scholars, researchers and budding scientific community who has contributed to our growth and success. Our combined continuous efforts has received a tremendous response and attracted billions of readers across the globe. During the year 2019, all issues of volume 5 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online. Journal of Clinical Immunology and Allergy (IPJAB) has published articles related to advanced developmental research in allergy, respiratory diseases, diagnosis, preventive treatment methodologies. It places special focus on topics such as herbal or traditional medications in preventing and treating allergy and respiratory diseases. One of the best example for treating early symptoms of bronchitis is EPs 7630 herbal medicine. Additionally, articles on subjects related to medical science such as Anatomy, Physiology, Genetics, Parasitology, Pathology, Immunology and Regulatory affairs. Out of all the papers published Most of the papers were from United States of America, India and African subcontinents. Average publication lag time of an article was further reduced to 45 days. Journal of Clinical Immunology and Allergy (IPJAB) is an International peer reviewed, open access journal that provides wide range of knowledge on current on-going clinical practice and research for immunology and Allergy healthcare professionals who care for people with acute and chronic illness in emergency conditions. The journal creates a platform for the authors to contribute through their research and scholarly outputs. The editorial office promises peer reviewing of the submitted manuscripts to maintain quality. The journal aims to publish the most complete and reliable information on discoveries and current developments in the field of Immunology, Allergy and Healthcare. The journal also includes various topics but does not limit to various fields of research upon Immunology and Allergy. Journal of Clinical Immunology and Allergy and Innovation is using Editorial Manager System to maintain quality in the online manuscript submission, review and tracking process. Editorial board members of Journal of Clinical Immunology and Allergy (IPJAB) along with eminent scholars conduct the review process; at least two independent reviewers approval followed by the editor is required for the acceptance of any citable manuscript. As of today's society, the use of social media has become a necessary daily activity, it is a valuable tool locally and worldwide, so we will communicate with the Researchers, Students, Scholars, Scientists, Professors, Deans, Institutes, Universities, and all the members related to the subject through LinkedIn, Twitter, Face book, My Live Chart, WhatsApp. We post the upcoming Issue and Journal highlights and current research works in social networks, So that all the members can work on the research and submit their papers. I take this opportunity to acknowledge the contribution of authors during the final editing of articles published and the support rendered by the editorial assistant in bringing out issues of IPJAB in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of Journal of Clinical Immunology and Allergy, the office bearers and staff for their support in bringing out yet another volume of IPJAB and look forward to their unrelenting support to bring out the Volume 6 Issue 2 of IPJAB in scheduled time.
